Our Story

In 2026, the United States turns 250, and West Hartford is proud to join the national commemoration. Guided by America 250 and Connecticut 250 committees, our town is planning events and programs to reflect on our past, present, and future as a democracy.

West Hartford deeply values the power of community and is committed to showcasing our town's unique contributions through diverse stories, civic engagement, and shared values. By partnering with local organizations, historians, artists, and community leaders, we're bringing West Hartford's rich history to life in meaningful ways. Over the next year, the West Hartford 250 Task Force will create educational and cultural opportunities that explore the many facets of the American experience from the perspective of our community. We'll host conversations, programs, and events that reflect who we are and highlight West Hartford's important role within Connecticut and the nation.

Above all, we aim to inspire dialogue built on empathy and respect, working together for the common good and a stronger future for all.

Join us as we shape West Hartford's role in this historic milestone!
